DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-36 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 9-11, 21, 30, 35 of U.S. Patent No.6452923 B1.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the removal of the steps of determining a zip code associated with the telephone number; determining a license code associated with the zip code; and determining a charge for the call associated with the license code; wherein each call within the series of calls that is not made from a home zip code is separated by an originating city zip code and an originating state zip code, and a total number of minutes within each originating city zip code and within each originating state zip code is stored with the associated zip codes; and wherein if there are four or fewer zip codes, the zip codes are written to the calling profile record in descending order by the amount of minutes for each zip code is not non-obvious over the claims of 6452923 B1 and therefore is not patentably distinct from each other.
